
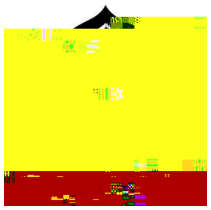
The iPad programme, which has been adopted by Al Siraat College, seeks to enhance learning for our students by utilising 21st century learning tools. The usage of individual iPads empowers students to improve their self-initiated learning and collaboration, and prepare them for further studies and the workplace.

A dynamic interaction among students, educators, parents and the extended community enhances student learning. Technology does not diminish the vital role of the teacher. On the contrary, it transforms the teacher from a director of learning to a facilitator of learning. Effective teaching and learning with iPads integrates technology into the curriculum at any time and any place. This document outlines the guidelines and acceptable use policy for all students using iPad devices at the College.

This document applies to all parents and students of Al Siraat College who utilise iPads at the College, voluntarily or under requirement. Usage of iPad devices constitutes consent to the policy and guidelines set out in this document.

Taking Care of The iPad – General Notes..... 2
Using The iPad At The College.....



Students are responsible for the general care of the iPad they use at Al Siraat College. It is the responsibility of the child to take care of the iPad. iPads that are broken or fail to work properly,
